

Scientific Tracks

Date	Time	Room	Session Title
August 22, 2024	7:45-8:45	MAIN HALL	Interdisciplinary Management of Benign Airway Stenosis
August 22, 2024	7:45-8:45	BREAKOUT 1	Safety first: Minimizing risks to the proceduralists
August 22, 2024	9:45-10:30	MAIN HALL	Plenary 1: Slice, Zap, Burn or Poke? The Showdown of Early Lung Cancer Treatments
August 22, 2024	10:45-11:45	MAIN HALL	Essentials in IP knowledge series II: Airway stents: Update 2024
August 22, 2024	1:30-2:30	MAIN HALL	Essentials in IP knowledge series II: Update on curative-intent bronchoscopy for airway tumors
August 22, 2024	1:30-2:30	BREAKOUT 2	"Scope" of Practice: IP in the GI tract
August 22, 2024	4:00-5:00	BREAKOUT 2	Tracheobronchomalacia: The all-inclusive multidisciplinary update
August 22, 2024	4:00-5:00	INTERACTIVE 2	Ask the expert: My case – your experience (Therapeutic Cases)
August 23, 2024	7:45-8:45	MAIN HALL	When Valves Don't Go as Planned: Management of BLVR Complications Pro/Con Debate
August 23, 2024	7:45-8:45	INTERACTIVE 2	Ask the expert: My Case – your experience (BLVR Cases)
August 23, 2024	10:00-11:00	MAIN HALL	Not Stopping at red: Approach and Management of Hemoptysis

August 23, 2024	10:00-11:00	BREAKOUT 1	Pediatric IP: Year in Review
August 23, 2024	10:00-11:00	INTERACTIVE 2	Ask the expert: Cohesion of IP and other degrees (MBA, MHA etc) – is this for me?
August 23, 2024	11:15-12:00	MAIN HALL	Plenary Session 4: Interdisciplinary Tracheostomy Programs: Dismantling silos and building collaborations
August 23, 2024	1:45-2:45	MAIN HALL	No nodule left behind: Diagnostic mastery beyond cone beam CT and robotic bronchoscopy
August 23, 2024	1:45-2:45	INTERACTIVE 1	Contrast is the mother of clarity: controversies in IP. Pro/Con Debate
August 24, 2024	7:45-8:45	INTERACTIVE 1	Bronchoscopy at the Brink: Preparing for High-Risk Cases with Confidence
August 24, 2024	10:00-11:00	BREAKOUT 1	Management of airway defects is a team effort: a multidisciplinary approach
August 24, 2024	1:45-2:45	MAIN HALL	Mission IP 2024
August 24, 2024	3:15-4:15	BREAKOUT 1	Teaching Rigid Bronchoscopy to Interventional Pulmonology Fellows: Where Do We Stand?
August 24, 2024	3:15-4:15	BREAKOUT 2	Emerging Technologies in Lung Cancer
August 24, 2024	3:15-4:15	INTERACTIVE 1	Expect the Unexpected: Intra-procedural complications of Central airway procedures and rescue strategies
Date	Time	Room	Session Title
August 22, 2024	7:45-8:45	MAIN HALL	Interdisciplinary Management of Benign Airway Stenosis

August 22, 2024	9:45-10:30	MAIN HALL	Plenary 1: Slice, Zap, Burn or Poke? The Showdown of Early Lung Cancer Treatments
August 22, 2024	10:45-11:45	BREAKOUT 2	Perspectives in management of pleural infections
August 22, 2024	4:00-5:00	BREAKOUT 2	Tracheobronchomalacia: The all-inclusive multidisciplinary update
August 23, 2024	11:15-12:00	MAIN HALL	Plenary Session 4: Interdisciplinary Tracheostomy Programs: Dismantling silos and building collaborations
August 23, 2024	1:45-2:45	BREAKOUT 1	Surgery for Pleural Disease: Whom, Why and When?
August 24, 2024	10:00-11:00	BREAKOUT 1	Management of airway defects is a team effort: a multidisciplinary approach
August 24, 2024	10:00-11:00	INTERACTIVE 2	Ask the expert: It does not stop at tracheostomy: bleeding, cuff leaks, pressures and after care
August 24, 2024	11:15-12:00	MAIN HALL	Plenary Session 6: Interventional management of Pneumothorax: Where we stand in 2024: Evidence based review
August 24, 2024	3:15-4:15	BREAKOUT 2	Emerging Technologies in Lung Cancer
August 24, 2024	3:15-4:15	INTERACTIVE 1	Expect the Unexpected: Intra-procedural complications of Central airway procedures and rescue strategies
Date	Time	Room	Session Title
August 22, 2024	7:45-8:45	BREAKOUT 1	Safety first: Minimizing risks to the proceduralists

August 22, 2024	7:45-8:45	INTERACTIVE 1	Biomarkers for Lung Nodule Risk Stratification: Are We There Yet? Pro/Con Debate
August 22, 2024	10:45-11:45	INTERACTIVE 1	Adjuvants to Robotic bronchoscopy: real time-radial EBUS-TBNA Vs. Cone-Beam CT vs Augmented Fluoro
August 22, 2024	1:30-2:30	BREAKOUT 2	"Scope" of Practice: IP in the GI tract
August 22, 2024	4:00-5:00	MAIN HALL	Navigating the Pulmonary Nodule: From Discovery to Diagnosis
August 23, 2024	7:45-8:45	INTERACTIVE 1	Peds IP: Growing Lungs, Growing Needs: The Evolving Landscape of Pediatric Interventional Pulmonology
August 23, 2024	9:00-9:45	MAIN HALL	Plenary Session 3: The Dawning of the next Ice Age? The everchanging diagnostic role of cryobiopsy
August 23, 2024	10:00-11:00	BREAKOUT 1	Pediatric IP: Year in Review
August 23, 2024	1:45-2:45	MAIN HALL	No nodule left behind: Diagnostic mastery beyond cone beam CT and robotic bronchoscopy
August 23, 2024	1:45-2:45	INTERACTIVE 2	Ask the expert: My case- your experience (Advanced Diagnostic Bronchoscopy Cases)
August 24, 2024	7:45-8:45	BREAKOUT 1	Lung nodule marking for minimal invasive sub-lobar resections: bronchoscopic or transthoracic?

August 24, 2024	10:00-11:00	BREAKOUT 2	Lesion in tool and on the slide: What happens after bronchoscopic peripheral lung biopsy
August 24, 2024	3:15-4:15	MAIN HALL	How to develop a successful screening program? Drawing from Successful Programs Across Diverse Healthcare Systems
August 24, 2024	3:15-4:15	BREAKOUT 2	Emerging Technologies in Lung Cancer
Date	Time	Room	Session Title
August 22, 2024	7:45-8:45	BREAKOUT 2	The trouble with drains
August 22, 2024	10:45-11:45	BREAKOUT 2	Perspectives in management of pleural infections
August 23, 2024	7:45-8:45	MAIN HALL	When Valves Don't Go as Planned: Management of BLVR Complications Pro/Con Debate
August 23, 2024	7:45-8:45	BREAKOUT 2	Expanding role of IP in non-infectious pleural effusions
August 23, 2024	1:45-2:45	BREAKOUT 1	Surgery for Pleural Disease: Whom, Why and When?
August 24, 2024	7:45-8:45	INTERACTIVE 2	Ask an expert! My case – your experience (Pleural Cases)
August 24, 2024	11:15-12:00	MAIN HALL	Plenary Session 6: Interventional management of Pneumothorax: Where we stand in 2024: Evidence based review
Date	Time	Room	Session Title
August 22, 2024	7:45-8:45	BREAKOUT 2	The trouble with drains

August 22, 2024	10:45-11:45	BREAKOUT 2	Perspectives in management of pleural infections
August 22, 2024	10:45-11:45	INTERACTIVE 2	Foundations of IP series 1: APP/incoming fellows/clinical associates
August 22, 2024	4:00-5:00	MAIN HALL	Navigating the Pulmonary Nodule: From Discovery to Diagnosis
August 23, 2024	7:45-8:45	BREAKOUT 2	Expanding role of IP in non-infectious pleural effusions
August 24, 2024	6:30-7:15	MAIN HALL	Delivering bad news: an essential skills workshop
August 24, 2024	10:00-11:00	INTERACTIVE 2	Ask the expert: It does not stop at tracheostomy: bleeding, cuff leaks, pressures and after care
August 24, 2024	3:15-4:15	MAIN HALL	How to develop a successful screening program? Drawing from Successful Programs Across Diverse Healthcare Systems
Date	Time	Room	Session Title
August 22, 2024	7:45-8:45	INTERACTIVE 1	Biomarkers for Lung Nodule Risk Stratification: Are We There Yet? Pro/Con Debate
August 22, 2024	7:45-8:45	INTERACTIVE 2	Ask the expert! How do I negotiate with hospital administration for my dream program – lessons learned from decades of experience
August 22, 2024	9:45-10:30	MAIN HALL	Plenary 1: Slice, Zap, Burn or Poke? The Showdown of Early Lung Cancer Treatments

August 22, 2024	10:45-11:45	BREAKOUT 1	Building a research career aligned with your clinical practice
August 22, 2024	1:30-2:30	BREAKOUT 1	Navigating the Patent Landscape for Innovative Medical Devices: Discovery to commercialization
August 22, 2024	1:30-2:30	INTERACTIVE 1	Lightening Rounds
August 22, 2024	1:30-2:30	INTERACTIVE 2	How I do it – Hands on Workshop: How to make professional videos? Using Social Media as a tool for professional advancement
August 22, 2024	2:45-3:45	MAIN HALL	Plenary 2: Research Symposium
August 22, 2024	4:00-5:00	MAIN HALL	Navigating the Pulmonary Nodule: From Discovery to Diagnosis
August 22, 2024	4:00-5:00	MAIN HALL	Tracheobronchomalacia: The all-inclusive multidisciplinary update
August 22, 2024	4:00-5:00	BREAKOUT 1	Quantity vs. Quality: Procedural Competency and Quality Metrics for IP and Advanced Bronchoscopists
August 22, 2024	4:00-5:00	INTERACTIVE 1	AABIP and Diversity, Inclusion and Unity – Opportunities and Challenges
August 23, 2024	6:30-7:15	BREAKOUT 2	Mentorship and Sponsorship in IP: It's a Two-Way Street that Requires Training in Both Directions Breakfast Session

August 23, 2024	7:45-8:45	BREAKOUT 1	The Value Chain for Health Technologies: Global Trends, Opportunities, & Implications for Practice of Medicine
August 23, 2024	10:00-11:00	BREAKOUT 1	Pediatric IP: Year in Review
August 23, 2024	10:00-11:00	BREAKOUT 1	Ask the expert! Cohesion of other degrees (MBA, MHA etc) – is this for me?
August 23, 2024	10:00-11:00	BREAKOUT 2	Reels to remember (Top Video Abstracts)
August 23, 2024	10:00-11:00	INTERACTIVE 1	Ethical Dilemma's in IP: Pro Con debate
August 23, 2024	1:45-2:45	BREAKOUT 2	Navigating An IP Career: Unique Considerations of Women
August 23, 2024	1:45-2:45	BREAKOUT 2	No nodule left behind: Diagnostic mastery beyond cone beam CT and robotic bronchoscopy.
August 23, 2024	1:45-2:45	INTERACTIVE 1	Contrast is the mother of clarity: controversies in IP. Pro/Con Debate
August 24, 2024	6:30-7:15	MAIN HALL	Delivering bad news: an essential skills workshop
August 24, 2024	7:45-8:45	MAIN HALL	Shaping the Future: Incorporating Advanced Technologies to Train Pulmonologists
August 24, 2024	7:45-8:45	BREAKOUT 1	Lung nodule marking for minimal invasive sub-lobar resections: bronchoscopic or transthoracic?
August 24, 2024	7:45-8:45	BREAKOUT 2	Billing, Coding, and Compensation in 2024 – Empowering the IP Provider through Knowledge and AI

August 24, 2024	9:00-9:45	MAIN HALL	Plenary Session 5: AI in Lung Cancer
August 24, 2024	10:00-11:00	MAIN HALL	Top Abstract awards
August 24, 2024	10:00-11:00	BREAKOUT 2	Lesion in tool and on the slide: What happens after bronchoscopic peripheral lung biopsy
August 24, 2024	10:00-11:00	INTERACTIVE 1	Advancing IP beyond Universities: Thriving IP and advanced bronchoscopy in community, hybrid and private practices
August 24, 2024	3:15-4:15	MAIN HALL	How to develop a successful screening program? Drawing from Successful Programs Across Diverse Healthcare Systems
August 24, 2024	3:15-4:15	MAIN HALL	Teaching Rigid Bronchoscopy to IP fellows: Where do We Stand?
August 24, 2024	3:15-4:15	MAIN HALL	Emerging Technologies in Lung Cancer
August 24, 2024	4:15-5:00	MAIN HALL	Plenary Session 7: Combating the mental toll of IP: Complications, Productivity Pressure and Life
Date	Time	Room	Session Title
August 23, 2024	7:45-8:45	INTERACTIVE 1	Peds IP: Growing Lungs, Growing Needs: The Evolving Landscape of Pediatric Interventional Pulmonology
August 23, 2024	10:00-11:00	BREAKOUT 1	Pediatric IP: Year in Review

August 23, 2024	1:00-3:00	SIMS ROOM	Simulation Session 5: Interventional Pulmonology for the Pediatric Patient -Advanced and Therapeutic Bronchoscopy Skills
August 23, 2024	4:15-5:15	SIMS ROOM	Pediatric IP Networking Hour
